Gravidry

No more indoor foams to make outdoor products

At Gravidry we have a reticulation technology that ensures that the foam has a high resistance and durability, thus guaranteeing a long life for your products.

What is Gravidry

Discover Gravidry's innovative 100% open cell, cross-linked polyurethane reticulated polyurethane (PUR) foam from Gravidry. Its extreme performance and comfort will revolutionise its use and options in outdoor products.

High comfort reticulated foam

The advantages of an outdoor foam with the comfort of an indoor foam.

Premium foam

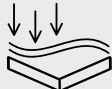

Draining

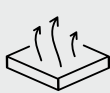

Dry fast

High comfort

Breathable

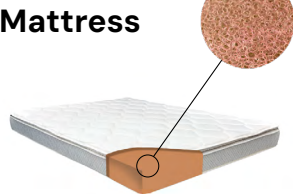

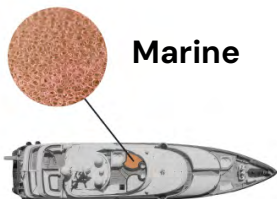

Making outdoor products using indoor materials has so far been a limitation because of the usual materials.

GRAVIDRY offers a wide range of outdoor foams to bring the comfort of the indoors to the outdoors.

Join the IN/OUT revolution.

Aplications

Bath
Sponge
